In order to accommodate its growing needs, Metro Consulting Associates, LLC (MCA) relocated its headquarters from Belleville to Plymouth this past January.

MCA is a full service land surveying and civil engineering consultant, has relocated its headquarters from Belleville to Plymouth to accommodate the firm's growth.

The new office is located at 45345 Five Mile Road and will house approximately 50 employees as well as a new Ecological Services division. MCA made the official announcement of the move last week, along with the announcement of a new northern Michigan office in Traverse City.

"When we opened our doors in 2009, we were a much smaller workforce dealing with a recession," MCA CEO Jeff Evans said in a news release. "After several amazing growth years, we felt the time was right to expand our headquarters and open our third Michigan office in Traverse City."

Evans said that the company was originally looking into moving to Ann Arbor, but then decided on Plymouth because it opened more staffing and client opportunities for them.
